## Loot Box Simulator 20!8 Key Serial

### About This Game

2017, many AAA games began to add paid boxes called "loot boxes". So I made a strange simulator about opening boxes with different things. Here you can click on the box, get virtual money for clicks and buy new boxes or open them. When you open the box, you will see that nothing has fallen out of the box, and the game money and time are spent, and you will get pain because of this. For example, one of the boxes costs 5000 clicks, you will click for a long time, buy this box, open box and then you will see that nothing has changed.

If you like such games and pain - we are waiting for you in Loot Box Simulator 20!8.

20!8 - it's time to play!

Features:

- Strange simulator for a certain type of people
- You will feeling pain and getting nothing in the game, and time and game currency will spend
- Game with hidden meaning
- Various types of boxes, which can be opened (to open the box you need to click on the box and get money for that, which you can spend on buying new boxes or opening them)
- Steam achievements

This is my life now.. Short game, easy for achievements.. help me with the cleaning event. Pros:

- Okay Music
- Funny Texts
- Easy Achievements

Cons:

- Short
- Repetitive
- Boring

The game is alright if you are looking for a cheap time waster game. It can get boring while collecting the money so I suggest you use an auto clicker to get 100% completion faster. Overall I would recommend you to buy it when it's 50% off because it isn't the best clicker game.

4V10. 10V10 game would recommend great for the price

i reckon anyone would like this game even if you like the worst of games this is probably the best game 10V10 should buy.

Look, I know it's supposed to be bad but, Cookie Clicker is more fun than this. When you buy a new box you don't get any upgrade at all other than an achievement. By bonus I mean faster clicking or more money per click.

tl;dr It sucks so don't buy it.
